

Feature:

1. [double heads CO2 laser engraving and cutting machine](#) adopt the international advanced DSP control technology, it is the pioneer to fast continuously curving-cut and shortcut processing pathway optimizing function, accordingly increase greatly the decency.
2. It automatically equalizes the diminishing of light during the whole operating to ensure the same cutting effect ion different area.
3. High-speed cutting control software and buffer function in high-speed movement can improve production efficiency.
4. The up-to-date software provides the direct output of original pictures; completely fit the graph foams such as CAD, CAM of CAD, and CorelDraw software, to meet the practical design requirement of the end users.
5. The advanced colors and the toms of the cutting can realize the one-time output completely or partially.
6. It uses USB port to transmit data, equipped with large-capacity memory,

improving working efficiency greatly.

Technical Parameter:

Model	PC-1390LD	PC-1410LD
Table Size (mm)	1300*900	1400*1000
Laser Power	60W/80W/100W/130W*2	
Laser Type	CO2 sealed laser tube, water-cooled, 10.6um	
Cooling type	Water-cooled	
Engraving Scanning Speed	0-6000mm/min	
Max Moving Speed	30000mm/min	
Cutting speed	0-1000mm/min	
Laser Output Control	1-100%software setting	
Smallest Character Engraving	English 1.0mm*1.0mm	
Highest Scanning Precision	2500DPI	
Locating Precision	0.01mm	
Supported File Format	DAT,PLT,BMP,DXF,AI,etc.	
Compatible Software	TAJIMA,CORELDRAW,PHOTOSHOP,AUTOCAD	
Operating humidity	Temperature:0-45, Humidity:5%-95%(without condensed water)	
Optional parts	Up&down table,auto focus system,rotary device,ball screw transmission,water chiller.	

Applicable Industries:

Advertising industry:Double-colored board engraving,Organic glass engraving andcutting,Label engraving,Crystal cup engraving,Warranty signed engraving Carved gifts and crafts industry:Wood,Bamboo Ivory ,Bone,Leather,Marble Packing and printing industry:Rubbery board,Plastic board,Double-layered board, Model cutting board Leather clothing industry: Complexletters and pattern engraving,

Cutting on hypoderm,Synthetic leather,Man-made leather,Cloth

Architectural model industry: ABS board cutting,Model cutting

Production totem industry: Appliance signs,Anti-fake commodities making

Applicable Materials:

Wood,Bamboo,jade,marble,acrylic,crystal,leather,plastic,paper,rubber,ceramic,glass and other non-metal materials.
